Remote Monitoring

When you are at work, your home is at your command. You can check the status of doors, windows and home appliances. View the live video on your phone and check the entrance records captured by the Aqara Door Lock. Aqara will push notifications to your phone if abnormal activities are detected.

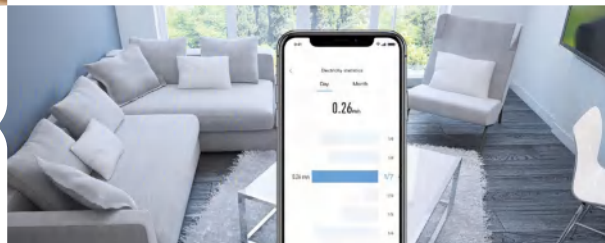

Check push notifications from your accessories at anytime

View live video to check how your pet is doing at home

Monitor the status of door and window

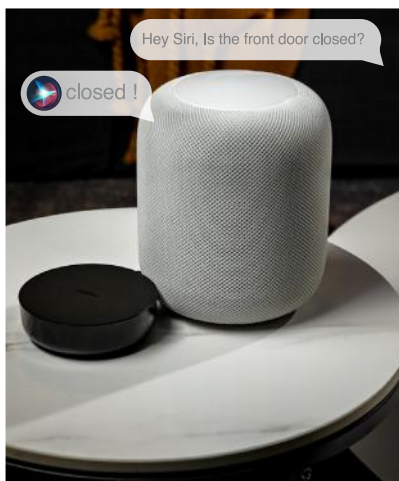

View real-time energy consumption data on the Aqara Home app

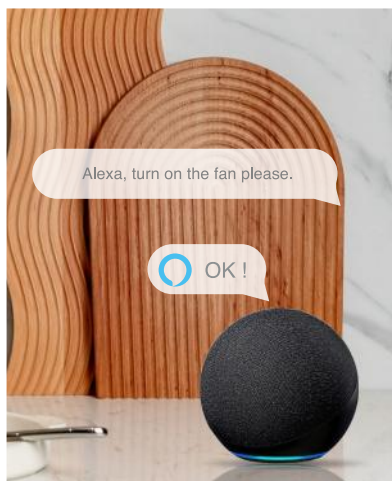

Voice & App Control

Allows you to set custom scenes to control multiple accessories at once, all with a single command

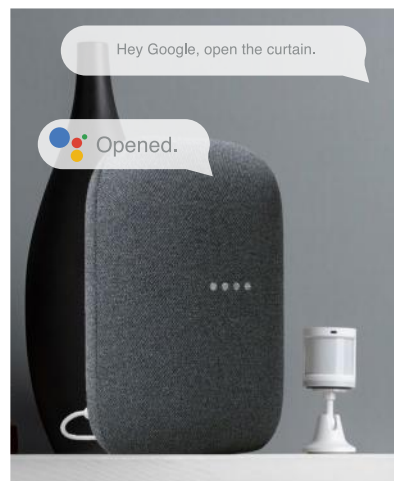

- Ask your favorite voice assistant to help make your home cater to your unique daily routine.
- You can control Aqara connected lights and appliances from anywhere away from home by using the Aqara Home app or Apple Home app.

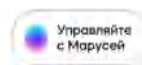

Hey Siri, Is the front door closed?

Alexa, turn on the fan please.

Hey Google, open the curtain.

Safety & Security Monitoring

Enable the Alert Mode. If abnormal movement is detected via the door or motion sensor, or if valuables are moved, the Aqara G2H Camera Hub will sound an alarm and send a 12 second video to your phone. You can also monitor your children's safety via your phone at any time. Moreover, you can arm and disarm the alarm system automatically, in case no motion is detected for some time, or manually, by press of a button before going out.

Ensure the Well-Being of Your Family

Nursery

- Automatically turn on the humidifier or fan to maintain the ideal climate for your baby. With an Aqara Temperature and Humidity Sensor and the Aqara G2H Camera Hub, you can check room temperature and monitor your baby's room in real time, providing a safe and comfortable environment for your child.

Elder Care

- When signs of inactivity have been detected over a period of time, the Hub will send a push notification to your phone.
- Experiencing pain or physical discomfort, an emergency notification can be sent to caregivers at the touch of a Wireless Mini Switch.
- The Aqara Hub can also act as a night light that can be automatically turned on when motion is detected, making everyone's lives safer and easier.

Home Automation & Scene Creation

Automation & Scene Creation

You can customize the Aqara Wireless Mini Switch to enable reading mode. For example, with a single press, you can close the curtains and automatically adjust the lights to the right level.

An assortment of Aqara controllers can be customized to automate a wide range of tasks around the house

- Turn on and adjust the brightness of the lights.
- Open/Close curtains.
- Remotely control appliances connected to the Smart Plug.

Good Morning

Start a beautiful day with Aqara. The curtains can automatically open to let the sunshine in. Air purifier, bathroom light, and the coffee maker can all be turned on with a single press of a button.

Set a specific wake-up time, and Aqara will automatically

- Turn off the night light.
- Open the curtains.
- Turn on the coffee maker.
- Turn on the lights in the bathroom.
- Turn on the air purifier.
- Disable the alert mode.

At the Office

Aqara can also make your office smart. When you walk into the office, the curtains open automatically and the hallway lights up. You can also enable presentation mode with the perfect light setting and ambience with a single press of a button. When you leave a office, all the lights and electric appliances can automatically turn off when no motion is detected.

When someone enters the office

- Hallway and office lights will turn on.

When it's time for a presentation. Press a wireless Mini switch to

- Turn off the lights.
- Close all the curtains.

When you leave the office, double press the wireless Mini switch to

- Turn off water dispenser.
- Power off all the appliances.
